

RC04

Step-Down Transformer
+ Receiver

RC04

Step-Down Transformer + Receiver

The RC04 takes care of all your underwater LED lights into one compact device up to the maximum 220W total. Equipped with a remote control and built-in receiver, making it easy and convenient to control all the lights and select from an array of colors. It can also be used to activate two additional auxiliary items, such as a water feature pump or garden lights.

Technical data

Housing Protection: IP65

Housing Size: 160mm x 160mm x 90mm

Weight: 1.8kgs

Input Voltage: 220V

Output Voltage: 12V

Maximum Power Output at 12V Terminal: 220W

Maximum Power Connected to Aux Terminals:
1500W/240V
